Realmatic Theory refers to the study of the three Realms—Physical, Cognitive, and Spiritual—that constitute the fundamental structure of the cosmere. Along with other fundamental properties like space and time, the Realms were created at the cosmere's equivalent of the Big Bang, before the Shattering of Adonalsium.

Turkey's economic and social development performance since 2000 has been impressive, leading to increased employment and incomes and making Turkey an upper-middle-income country. However, in the past few years, growing economic vulnerabilities and a more challenging external environment have threatened to undermine those achievements.
