All the same, being a world-class team does not mean being a team composed of world-class players. Ability is important, but so too is complementarity. Teams are created out of the belief that they generate an energy and synergy that make the whole greater than the sum of the parts. In the world-class team, the result is performance that is ...

Research suggests that talent-performance profiles in many areas—such as business, sports, the arts, and academia—look more like power-law distributions. Sometimes referred to as Pareto curves, these patterns resemble a hockey stick on a graph. (They got their name from the work of Vilfredo Pareto, who more than a century ago observed, among other things, that 20 percent of the pods in his ...
